

Product Overview	High Bond acrylic Foam tape, for a variety of automotive applications and especially on lacquered parts and other coatings Very Good Shear. Excellent UV and solvent Resistance Foam Density: 840 kg/m3
Liner	PE Liner
Colour	Grey
Range of Applications	General Automotive high bond applications.

Test Characteristic	Units	Standard Values	Tolerance	Test Method
Total Thickness (no liner)	mm	1.6	+/- 10%	
Temperature Resistance		100 °C long term, 160°C Short term Min temperature -40°C		
90° Peel Adhesion to steel	N/cm	37		ASTMD3330
Static Shear	kpa	500		ASTM 3654

Figures shown refer to average values only, based on tests carried out in laboratory conditions and are not valid for specification. The company reserves the right to modify or change the product at any time without notice.

All information has to be intended as generic advice for the use of products. Users have to verify the suitability of each tape in actual application under specific conditions
