

Product Overview	Very High Bond acrylic adhesive tape(s) with excellent initial tack. Foam Density: 600 kg/m3 Excellent solvent and UV resistance
Liner	Red PE Film (paper liner is available)
Colour	Black
Range of Applications	Wide variety of Automotive applications for bonding to difficult substrates including Powder coats, Lacquered surfaces, PP, PE and EPDM without Primer

Test Characteristic	Units	Standard Values	Tolerance	Test Method
Total Thickness (no liner)	mm	Various		
Temperature Resistance		90°C long term, 120°C Short term Min temperature -40°C		
90° Peel Adhesion to steel	N/cm	23-40 dependent on thickness		ASTMD3330
Static Shear	kpa	670-860 dependent on thickness		ASTM 3654

Figures shown refer to average values only, based on tests carried out in laboratory conditions and are not valid for specification. The company reserves the right to modify or change the product at any time without notice.

All information has to be intended as generic advice for the use of products. Users have to verify the suitability of each tape in actual application under specific conditions
